WHEREAS, the advancement and well-being of Arizona depend upon the continued development of workers skilled in their chosen fields; and

WHEREAS, registered apprenticeship programs provide opportunities for Arizonans to earn while they learn and prepare a pathway to quality jobs and enable employers to develop and train their future workforce while offering career seekers affordable paths to secure high-paying jobs; and

WHEREAS, registered apprenticeship programs are a key strategy to meet the changing demands of the Arizona economy and provide a path for all qualified individuals, including women, youth, people of color, rural communities, justice-involved individuals, and individuals with disabilities, to become apprentices and contribute to America's industries; and

WHEREAS, registered apprenticeship programs address some of our nation's pressing workforce challenges such as rebuilding our country's infrastructure, addressing critical supply chain demands, supporting a clean energy workforce, modernizing our cybersecurity response, and responding to care economy issues; and

WHEREAS, the Arizona Apprenticeship Advisory Committee continues to advance registration of apprenticeship programs resulting in thousands of apprentices in skilled trades and occupations. NOW, THEREFORE, I, Katie Hobbs, Governor of the State of Arizona, do hereby proclaim November 13 - 19, 2023 as

ARIZONA APPRENTICESHIP WEEK

and call upon all Arizonans to recognize the purpose and value of apprenticeship programs and to pursue its further expansion.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Arizona

GOVERNOR

DONE at the Capitol in Phoenix on this eighth day of November in the year Two Thousand and Twenty-Three and of the Independence of the United States of America the Two Hundred and Forty-Fighth.

Workforce Projects: Integrated Data System

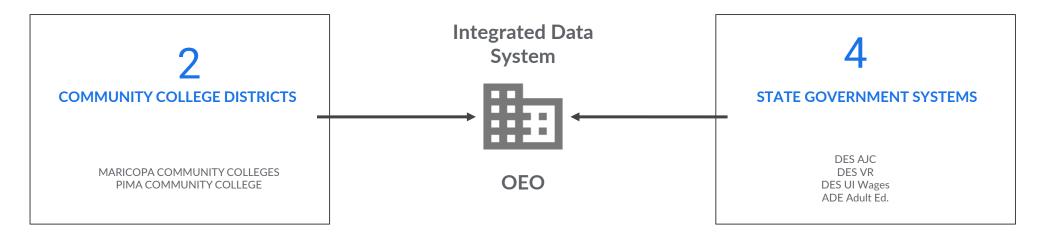

Ferris Ramadan, OEO

Introduction & Purpose

- Laws 2016, Chapter 372 established the Workforce Data Task Force to support the evaluation of workforce and education programs
- The Office of Economic Opportunity (OEO) established the Integrated Data System (IDS)
- The OEO collects and links administrative records

- Data are exclusively used for statistical analysis
- Research may be conducted by OEO staff and external parties

Design & Accessibility

- IDS hosted on the Google Cloud Platform
- OEO uses NIST guidelines for information security
- Project proposals are approved by data owners
- Project workflow:
 - Parties sign data use agreement that complies with federal regulations
 - OEO prepares anonymized data needed for the project
 - OEO provides secure access and workspace for analysis
 - OEO reviews & screens output for disclosure risk
- Parallel longitudinal systems
 - Emphasis on evaluating benefit for vulnerable / high-risk populations
 - Title I program participants experienced a 14% decrease in overall employment 32 months after exit (Ohio Office of Workforce Transformation)

Active Projects

- Workforce Effectiveness Advisory Committee
 - Established by OEO Director to streamline evaluation of workforce development programs
- Support external program evaluation with data source partner (December 2023)
- Validate and expand IDS data matching methodology (February 2024)
- Develop an IDS Research Agenda (March 2024)
 - Identify and communicate priorities for workforce development on the IDS for 2024-2028
 - Emphasis is identifying agency priorities (e.g. key questions, activities, ethical considerations)
 - Equity: backgrounds, experiences, opportunities, and access
 - Predictive analytics: positive and negative outcomes
 - Subject matter experts from OEO, DES, ARIZONA@WORK & partner agencies
- Workforce Development evaluation (April 2024)
 - ARIZONA@WORK Title I Adult participants
 - Evaluate industry of employment
 - Longitudinal performance outcomes & completion rates
 - Identify predictive wage features to identify higher areas of impact

Closing Remarks & Questions?

Title I-B Training Effectiveness Project

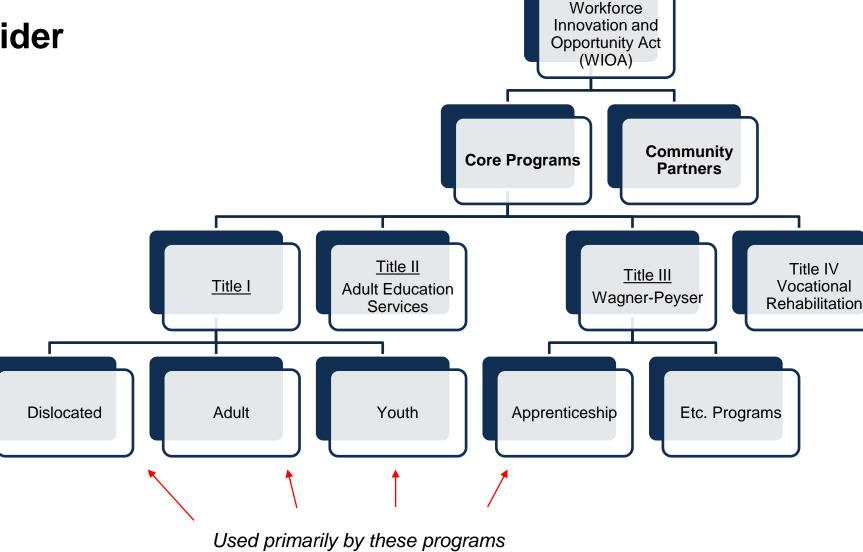

Rachael Tashbook, OEO

Eligible Training Provider List (ETPL) Context

"The Workforce Innovation and Opportunity Act (WIOA) requires states to maintain a list of training providers approved to offer training to individuals eligible to receive WIOA funds. The statewide Eligible Training Provider List (ETPL) includes eligible training providers and training programs that are approved by both the Local Workforce Development Areas (LWDAs) and DES to provide training services to eligible WIOA participants. Training programs must meet state and local requirements of in-demand industry sectors and occupations in Arizona, and result in a recognized credential."

Eligible Training Provider List (ETPL) Function

- Designed to provide WIOA participants with a wide range of training options.
 It ensures that the training providers listed meet certain quality and performance standards.
- Should be used by the State Workforce Council, DES, and local workforce board to nudge better employment and wage results for Arizonans in need of workforce services.

How?

Governing bodies are required to ensure that minimum performance levels are met for initial and continued training provider eligibility. Further, governing bodies may provide tiered resources to help improve employment and wage outcomes.

How can the Office of Economic Opportunity's Economic Analysis team help?

- We're developing a means to help state and local policy makers, policy enforcers, and training participants have a better understanding of <u>which</u> <u>programs are most impactful.</u>
- This data can be used as a tool to help the workforce system better utilize training program that provide the best employment and wage results!

Problem: Evaluating Training Program Effectiveness is Difficult

- How do we fairly identify what is a problem with a training program versus uncontrollable circumstance?
 - How do we assess training programs if the economy is bad or their participants have a lot of barriers?
 - How do you fairly assess training programs focused on retraining individuals who are already employed, but looking to improve their skill set?
- What do we do when we identify that, despite these nuances, a program is performing especially well or especially poorly?

Solution: Customized Effectiveness Evaluation Model

Effectiveness is based on the unique participant and economic characteristics of each training program after the participant exits Title IB – Adult services.

- For example, if a given participant enrolled in a specific training:
 - Is homeless, the program would be expected to have lower performance outcomes.
 - Lives in a **community that needs a lot of this occupation**, that could **increase** expected employment level performance outcomes.

The evaluation model estimates the effectiveness of the training programs offered on the ETPL based on three measures:

- Employment 2nd Quarter after Title I Adult program exit
- Employment 4th Quarter after Title I Adult program exit
- Wages 2nd Quarter after Title I Adult program exit

Programs are then separated into the following three categories: exceeded expectations, met expectations, and below expectations.

Next Steps

- Currently have a model that uses 3-years of performance data to evaluate effectiveness of programs in serving Title I-B Adult Participants
- Test the evaluation model for efficacy
- Gain further feedback from state and local partners
- Develop tools that would make the data accessible and usable to partners

Conclusion

- Arizona's workforce system needs levers to help nudge improved performance.
- The ETPL is a key tool for improving employment and wages for Arizona's job seekers.
- The ETPL won't be used effectively if there isn't clear performance analysis on the training programs.
- The results of this study will help stakeholders including the State Workforce Council, DES, LWDB, education providers, and students to use the ETPL as intended.

THANK YOU
