Department of Youth Service

Scope of Work

FY 2026-2027

A. Outreach and Recruitment

Outreach and recruitment include, but are not limited to, targeting potentially eligible youth, working with parents and guardians to secure necessary documentation, and must do their own recruitment closely with other governmental and community organizations and school systems to identify and recruit eligible out-of-school youth participants to include churches and job fairs. To ensure that projected levels are successfully met, the Department of Youth Services shall conduct outreach in all areas of the county, including South and East County, and refer potentially eligible youth for screening into the WIOA program.

Moreover, through the WIOA Youth Program, employers receive assistance with finding the skilled workers they need to compete and succeed in business. Department of Youth Services will be responsible for the recruitment of job seekers and businesses for WIOA services. All recruitment and marketing materials must have the appropriate tag lines.

The Department of Youth Services designated representative must attend the weekly meetings conducted by the Employer Engagement Coordinator.

B. Orientation

As part of orientation, all youth must receive information on all services available through the Department of Youth Services to include additional community resources. Orientation must be conducted regularly to meet the recruitment demand of employers, businesses, and job seekers.

C. WIOA Registration/Eligibility Determination and Verification

The Department of Youth Services is responsible for determining eligibility, suitability, identifying barriers, and collecting and verifying all necessary eligibility documents. These verification documents must be maintained electronically. Parent/guardian must accompany the minor during the eligibility process. Parent/Guardian signatures will be required for all youth ages 18 and younger. No youth may participate in any program prior to securing WIOA eligibility. Electronic files are subject to ongoing review by the YCLWDB staff, and it is recommended for contract supervisors to confirm eligibility and review data entered. The Department of Youth Services may request technical assistance as needed to help assure compliance with eligibility requirements. The Department of Youth Services will have three (3) business days (subject to change) to enter data in the AJC system. The YCLWDB staff will provide technical assistance at the request of the Department of Youth Services on the eligibility determination process, how to use the Integrated Services Delivery System (ISDS), the State WIOA database reporting system known as Arizona Job Connection (AJC), and any other data internal management systems.

Youth participants whose eligibility criteria require them to be low-income individuals are recipients of secondary school diplomas or its recognized equivalent and are at least one of the following: Basic skills deficient; an English language learner; or in need of additional assistance to enter an educational program or to secure employment. For more information on low-income requirements, please see State Policy Chapter 2 Section 200. Up to five percent of a local area's covered individuals may be enrolled in the youth program if they meet all other eligibility criteria except the low-income

criterion. In a program year, the number of newly enrolled covered individuals who are not low-income must not exceed five percent of the local area's total new enrollments of covered individuals. Eligible youth who do not enroll in WIOA programs should be provided information regarding other applicable and appropriate resources to include services available through other local programs that can serve them to include the One-Stop Career Services. In addition, eligible youth should be given referrals utilizing the CRS, and follow-up is required.

D. Objective Assessment

The Youth Service Provider/Department of Youth Services will conduct, administer, or obtain a thorough and in-depth an objective assessment of the academic level, skill levels, and service needs of each participant, which will include a review of basic skills, occupational skills, prior work experience, employability, interests, aptitudes, (including interest and aptitudes for non-traditional jobs), supportive service and development mental needs. The goal is to accurately evaluate each youth to develop an appropriate service strategy to meet their individual needs. For basic academic skills, the YCLWDB requires that the Department of Youth Services use the most current Tests of Adult Basic Education (TABE). Other assessment tools should be utilized for assessing career interests and aptitudes. A new objective assessment is not required if a partner program has completed an objective assessment with the participant in the last six months and its use is deemed appropriate by the LWDA. Further assessment if determined appropriate. Any subsequent objective assessment will be done in coordination with any appropriate community partner. For more information on Objective Assessment, please see the State Policy Chapter 2 Section 300.

If a participant does not possess a high school diploma or HSE, secondary school completion will be required. As part of the objective assessment, the Department of Youth Services will also provide all participants with a career interest tool which can be utilized to assist youth with career exploration and validate the career path chosen. Department of Youth Services will utilize the results gained from the objective assessment process to assist in the development of an Individual Service Strategy, which will address the needs, barriers, strengths, goal(s)/interests, and services to be provided to the participant. The Individual Services Strategy is a working plan in progress and will be reviewed and tailored to meet the goals and objectives of the individual participant.

Department of Youth Services will prepare youth for post-secondary opportunities, create strong linkages between academic and occupational learning, prepare youth for unsubsidized employment and develop connections to intermediaries with strong links to the labor market by providing work base learning, basic skills, and occupational skills training, as well as through collaborative efforts with educational entities, local businesses, and community organizations.

E. Individual Service Strategy (ISS)

The Department of Youth Services will use the results of the youth participant's objective assessment to develop the initial ISS for the youth participant. The ISS is an age-appropriate, individualized, written plan of short and long-term goals that include career pathways, education and employment goals, involvement in WIOA youth program elements, support services, and incentives. The ISS is a living document and must be updated only when the participant has had major career pathway and or significant life changes. The ISS must coincide with case notes in AJC and services. For all youth, the ISS will identify the timeframe in which each youth will be expected to complete all activities related to each of the goal(s) specified in the ISS. The ISS will connect the services to be provided to each youth, identifying the outcomes to be achieved between WIOA enrollment and exit. The ISS will be reviewed and updated only when the participant has had major career pathway and or significant life changes. For more information on ISS, please see the YCLWDB Training and Policy and State Policy Chapter 2 Section 300.

F. Case Management

The Department of Youth Services will deliver high-quality services that create training and employment opportunities for economic and career success, connecting job seekers with employer-driven job placement. Case Management is the infrastructure for delivering effective services that will facilitate the positive growth and development of youth and the achievement of performance goals. The case management process extends from enrollment through follow-up, including completing the eligibility, assessments, and service strategies. Case Managers are expected to motivate participants and coordinate services and information to prepare youth for post-secondary education opportunities, academic, occupational training opportunities, and employment. The Department of Youth Services will engage participants at a meaningful frequency (bi-weekly), driven by needs and career interest and goals, as well as the scope and objectives of the program. The Department of Youth Services will document such engagement appropriately in the participant's case files. The Department of Youth Services will have three (3) business days (subject to change) to enter data into all local associated data internal management systems. The Department of Youth Services will maintain an evenly distributed caseload per staff member. All case notes and documents must be kept confidential. Youth Career staff will assist a youth participant in making informed choices and completing the program to include maximizing co-enrollment with partners and providers.

G. Access to a Range of Services

It is required that the WIOA youth 14 program elements be made available to all youth accessing the LWDB services. The YCLWDB prefers that the Department of Youth Services offer bundled services to all youth participants. The key is to make services seamless and timely. It is also expected that the Department of Youth Services will have staff located in Yuma County and be able to provide services on demand as needed. The Department of Youth Services will have primary responsibility for ensuring that each participant receives the full range of services. Services accessed by a WIOA youth participant will depend upon the needs and goals identified by the participant and Youth Career Staff as documented in the participant's ISS.

H. Follow-up Services

The Department of Youth Services is required to provide 12 months of follow-up services to all participants who have completed (exited) the program. The Department of Youth Services is encouraged to consider the needs and barriers of the program's target population(s) in determining the appropriate levels and types of follow-up services. Follow-up services are critical services to help ensure the youth is successful in employment and/or post-education and training beyond their program completion. Follow-up services will be conducted monthly to promote job retention, wage gains, and career progress. Support services are available during follow-up for youth.
