**Ensuring Selective Service Compliance in the Public Workforce System:** In order to participate in a program established by or receiving assistance under Title I-B, all males born on or after January 1, 1960 must present documentation showing compliance with the Selective Service registration requirement. Acceptable documentation to determine a person's Selective Service registration status include:

- Form DD-214 "Report of Separation"
- Screen printout of the Selective Service Verification site:

[www.sss.gov/RegVer/wfVerification.aspx](http://www.sss.gov/RegVer/wfVerification.aspx). For males who have already registered, this website can be used to confirm their Selective Service number as well as the date of registration, by entering a last name, social security number, and date of birth.

- Selective Service Registration Card
- Selective Service Verification Form (Form 3A)
- Stamped Post Office Receipt of Registration

**Registration Requirements for Males Under 26:** Before being enrolled in Title I-B funded services, all males who are not registered with the Selective Service and have not reached their 26th birthday must register through the Selective Service website at [www.sss.gov](http://www.sss.gov). If a male turns 18 while participating in any applicable services, registration with Selective Service must be completed no later than 30 days after he becomes 18 in order to continue to receive Title I-B funded services. Staff is required to obtain proof of registration and uploaded into AJC and document in AJC case notes. If a man under the age of 26 refuses to register with the Selective Service, Title I-B funded services must be suspended until he registers.

**Registration Requirements for Males 26 Years and Over:** Before enrolling in Title I-B funded services, all males, 26 years of age or older, must provide documentation of compliance with the Selective Service registration requirement. Individuals who did not register for the Selective Service or who cannot provide any of the documentation listed in Section 3 must obtain a Status Information Letter from Selective Service indicating whether he was required to register. The Request for Status Information Letter form can be accessed at <http://www.sss.gov/PDFs/infoform.pdf> and the instructions can be accessed at <http://www.sss.gov/PDFs/instructions.pdf>. The individual will need to describe, in detail, the circumstances that prevented him from registering (e.g., hospitalization, institutionalization, incarceration, military service) and provide documentation of those circumstances. The documentation should be specific as to the dates of the circumstances.

If the Status Information Letter indicates that an individual was not required to register for the Selective Service, then he is eligible to enroll in services authorized or funded by Title I-B. If the Status Information Letter indicates that the individual was required to register and now cannot because he is 26 or older, he is presumed to be disqualified from participation in Title I-B funded activities and services until it can be determined that his failure to register was not knowing and willful. All costs associated with grant-funded services provided to non-eligible individuals may be disallowed.

**Determining Knowing and Willful Failure to Register:**

If the individual was required but failed to register with the Selective Service, the individual may only receive services if they establish by a preponderance of the evidence that the failure to register was not knowing and willful. The grantee, subgrantee, or contractor that enrolls individuals in Title I-B funded activities, and is thereby authorized to approve the use of Title I-B grant funds, is the entity responsible for evaluating the evidence presented by the individual and determining whether the failure to register was a knowing and willful failure.

Evidence presented may include the individual's written explanation and supporting documentation of his circumstances at the time of the required registration and the reasons for failure to register. The individual should be encouraged to offer as much evidence and in as much detail as possible to support his case.

The following are examples of documentation that may be of assistance in making a determination in these cases:

1. Service in Armed Forces. Evidence that a man has served honorably in the U.S. Armed Forces such as DD Form 214 or his Honorable Discharge Certificate. Such documents may be considered sufficient evidence that his failure to register was not willful or knowing.

2. Third Party Affidavits. Affidavits from parents, teachers, employers, doctors, etc. concerning reasons for not registering, may also be helpful to grantees in making determinations in cases regarding willful and knowing failure to register.

In order to establish consistency regarding the implementation of the requirement, grantees should consider the following questions when determining whether a failure to register is knowing and willful.

**In determining whether the failure was “knowing,” the authorized organization should consider:**

- Was the individual aware of the requirement to register?
- If the individual knew about the requirement to register, was he misinformed about the applicability of the requirement to him (e.g., veterans who were discharged before their 26th birthday was occasionally told that they did not need to register)?
- On which date did the individual first learn that he was required to register?
- Where did the individual live when he was between the ages of 18 and 26?
- Does the status information letter indicate that Selective Service sent letters to the individual at that address and did not receive a response?

**In determining whether the failure was “willful”, the authorized organization should consider:**

- Was the failure to register done deliberately and intentionally?
- Did the individual have the mental capacity to choose whether or not to register and decided not to register?
- What actions, if any, did the individual take when he learned of the requirement to register?

If an authorized organization determines it was not a knowing and willful failure and the individual is otherwise eligible, Title I-B services may be provided. If the authorized organization determines that evidence shows that the individual’s failure to register was knowing and willful, Title I-B services must be denied. Individuals denied services must be advised of available Title I-B grievance procedures. Authorized organizations must keep documentation related to evidence presented in determinations related to Selective Service.

Yuma County will request a Status Information Letter from a potential participant before making a determination as to whether the participant knowingly and willfully failed to register for selective services, prior to enrolling the participant into a Title I-B program. The Status Information letter in conjunction with the **TRAINING AND EMPLOYMENT GUIDANCE LETTER NO. 11-11, Change 2**, will assist in evaluating the evidence presented by the individual.
